Kisetsu casts a magic spell, letting readers discover a perfect balance between the poetry of its words and the beauty of its watercolors.

A bestseller from the "Little Travel Journals" collection, *Kisetsu* is a poetic and deliciously illustrated watercolor travel diary for a passionate trip through the heart of Japan. Over the course of the four seasons, author, painter, and professional architect Barbara Luel explores a unique and original facet of Japan: nature over time. Her evocations of this endearing and country of many contrasts evince great depth of feeling.
Akinomé, a publisher specializing in travel and children’s books, is also passionate about the enviroment, and publishes books where a sense of place matters as much as pictures as it does in words.
