A colossal coming-of-age story that addresses difference, love, and freedom through a sensitive feminist lens.

Once upon a time, Celeste, an actual giantess, lived in the heart of a mountain. She was the youngest of a family of six brothers who had taken her in as an orphan. And when the time came for each of them to leave the family nest in turn, Celeste too wanted to stride forth in search of new horizons. Out in the world, she discovers her differences are met with hostility. She witnesses the injustices of war and religion, but she also finds love. Will her journey finally bring her the freedom to be herself?
