Statistics and Epidemiology

100 Exercices with Answers Key

Author: Thierry Ancelle

Publisher : Maloine

Category : Science, Technology, Medicine

Genres : Medicine

Keywords : Landscaper - Cinema

100 exercises covering the essential parts of introductory chapters to standard statistics for healthcare professionals, as well as basic methods in epidemiology.

Learning statistical concepts and methods often requires immediate and repetitive application. Through practice and the use of different approaches, the application of the theoretical principles presented in class becomes easier. Students new to statistics will find in this book 60 statistical exercises and 40 epidemiological exercises with an emphasis on implementing methods and interpreting results.
