Producing more, great! But at what cost?

A farmer lives happily with his three cows. One day, a man in a suit and tie suggests he produce even more of his delicious milk. It seems like a good idea, so the farmer buys three more cows, then four, then seven, and so on. Soon enough, the poor farmer is overwhelmed by the scope of his new responsibilities. His three original cows end up running away. Chasing after them, he realizes that sometimes... less is more!
