An activist graphic reportage that gives a voice to victims of police violence.

In these twenty striking portraits, Remedium condemns the impunity enjoyed by the forces of law and order, and the discrimination and abuses of power perpetrated by people entrusted to represent the state and protect its citizens. The author lends their victims a voice to set out their version of events, highlighting just how systematic police racism and violence are. Incidents of police violence can no longer be seen as isolated incidents, exceptions, but very much everyday occurrences.
