A political (and philosophical!) alphabet, to discover the world intelligently!

Democracy and Donation, Island and Infinity, Quantity and Quality, Uniformity and Uniqueness... Politics doesn't have to be boring!

This is no ordinary alphabet primer! Each two-page spread brings together two words beginning with the same letter. Now watch as they subtly interact! Words such as "newspaper" or "donation" might seem simple, but a sharp political analysis of the modern world reveals many inequalities. With a great deal of humour, philosophy, and even poetry, Agnès Rosenstiehl illustrates each word and concept with lively, mischievous, and free-flowing scenes full of cultural references and easter eggs that will delight curious readers young and old alike!
