This veritable cabinet of curiosities presents remarkable biological illustrations that can be detached for hanging as wall art.

These beautiful biological illustrations, from an era of scientific expeditions and travel accounts, combine the worlds of science and art.

This volume includes 21 beautiful, easily detachable reproductions of drawings, paintings, etchings, and lithographs by the most famous biological artists. Each work is accompanied by a detailed description of the animal depicted, its scientific classification, the artist's name, and the place of conservation.
