Vegan Philosophy

Fifty Perspectives on the Status of Animals

Author: Renan Larue

Publisher : PUF

Category : Humanities and Non-Fiction

Genres : Essay

Keywords : Awareness - Hyena - Identity - Elderly -
Desire for children

This book fills in gaps in public knowledge and contributes to a debate that has become central to our society.

Veganism is catching on quickly in the West. Part of a rich philosophical tradition, it expresses two psychological tendencies most of us share: an aversion to animal suffering and a desire to save the planet. In so much as veganism remains a minority affair, challenging deeply rooted habits, it has endured myriad critiques from representatives of processed food industry, as well as intellectuals. But these debates have not always been equal to the high stakes at hand. Disagreements between supporters and their adversaries are often founded on the same misunderstandings.
