An international reference guide about mammals of Europe, North Africa, and the Middle East, completely updated in 2020.

Covering over 488 species, this work presents all terrestrial and marine mammal species of the Western Palearctic ecozone. Individual species entries are concise and authoritative, giving information on size, distribution, habitat, behavior, reproduction and feeding. Each entry is augmented by superb visuals: 400 distribution maps, 600 color species illustrations, and 450 drawings of skulls and teeth.
