Marija Gaudry, Foreign Rights Manager

"A stunningly illustrated introduction to ecology and endangered species for young children. I love this beautiful, interactive book! Find the hidden butterflies!"

From snow-covered peaks to the deepest caves, lush jungles to arid deserts, Professor Schmetterling will stop at nothing to track down the Levana, a mysterious butterfly that the scientific community believes has gone extinct. Extinct? Poppycock! The professor begs to differ. Along with his faithful talking bird and armed with his net and sketchbook, Schmetterling slams the front door, leaving home and study behind, for... ADVENTURE AWAITS!
