"A major artist in contemporary children's literature brilliantly explores the adventure genre, delivering a new masterpiece about magic and creativity."

After years in hiding, three magicians wake up one day. No sooner have they done so than the dreadful, greedy Huntress and her companion the Clinker start hunting them down! The Huntress relentlessly seeks to turn them into seeds and sell them to the Wizard, an almighty magnate who reigns over a society dominated by order and money. Will the powers and imagination of the Magicians help them defeat their enemies?

This thrilling adventure story, inspired by video games and science fiction, features strong, empowering characters in a meaningful book about magic, metamorphosis, and the power of creation.
