"Adventure, romance, humor, and a delightfully insolent style. A fun, immersive story, Don Quixote meets rock'n'roll. Fabrice Capizzano confirms his gift for making reality epic."

The improbable escapades of a cast of characters who never should have met. Together, they fulfill the last promise they made to their enigmatic friend: to scatter her ashes on her native land, the most remote island in the world. Just to complicate things, there's a police commissioner doggedly trailing them to a fiery, unexpected finale, not to mention a crazy, passionate, unconventional love triangle. *The Narrowboat's Hold* is fresh, free-spirited, at once zany and realistic, wild and serious: a tale of how love can change our lives, an allegory challenging the absurdity of our world, and a thriller that moves at the breakneck pace of... a barge!
