Journey to the Center of the Atom

The Most Spectacular Application of Quantum Physics

Authors: Stéphane d'Ascoli - Adrien Bouscal

Publisher : First

Category : Science, Technology, Medicine

Genres : Physics/Chemistry/Biology

Keywords : Digital - Suburb - Artificial intelligence -
Feeling - Neuropsychiatry

Building a quantum internet, calculating at the speed of light... discover the most spectacular possibilities of physics in 2022!

Quantum physics today has surprisingly concrete and unusual manifestations. Through 10 of them—using the sun as a battery, detecting tumors, calculating at the speed of light—this book recounts the history of this incredible science and simply explains its basic concepts that can be so confusing, and are so often the stuff of sheer fantasy. Set off an exciting journey to the center of the atom!
