Self-respect, freedom of speech, feminism—exploring the taboo of male anal penetration touches on many themes.

Py and Redondo compare and contrast the perspectives of four people from different backgrounds. Over the course of a fun, instructional conversation, each provides and questions his own take on the topic of male anal penetration, and also more generally, gender and sexuality.

Probing the roots of this transgressive pleasure, the four speakers deconstruct their respective prejudices and our own barriers, giving their answers to fundamental questions about notions of virility, femininity, friendship, and body respect.

An enlightening work of graphic nonfiction that combines sociology and sexology with unbridled but generous humor.
