The moving encounter of two young adults cut off for too long in loneliness and fear, in a torn between magic and technology.

War is brewing among the kingdoms of the Continent. In this game of power and magic, discovering suits of robotic armor soon becomes the deciding strategic factor. These mobile suits, vestiges of an ancient civilization, would give anyone the upper hand if their secret could just be cracked! The other path to certain victory? Finding Sadge, the Master of Arcana, the bearer of the Ace of Death and the Joker. Pursued for his powers, he finds refuge at a famous magic school. There he meets Diba, whose gifts are as destructive as they are uncontrollable. Together, they will try to unravel the riddle of the mobile suits.
