A richly illustrated nonfiction book with facts and activities to promote the active exploration of biodiversity while developing creativity!

Children will learn to interact with the living world with wonder and respect. Through the vivid illustrations, valuable information, and activities classified by season in these books, they will discover biodiversity while expressing their creativity.

Whether you are a young plant or a centuries-old tree, take a moment and wander through the woods. With this book, celebrate the time of blossoms, the birth of small mammals, the sprouting of mushrooms, and the beauty of the first snows. Spring, summer, fall, or winter, there's always an activity to do: a cabin to build, a crown to weave, or a terrarium to make!
