40 sounds to discover and over 50 items to find: hours of fun guaranteed!

On each of the five spreads, children can activate a sound chip containing eight sounds in total. One sound will be heard at random when children press the chip so they can have fun guessing what or who makes the sound in question! There is also a list of possible sounds to help guide their search.

With five large scenes to explore different landscapes and sounds (home, farm, city, forest, and jungle), and a list of seven elements to find, toddlers' sight and hearing are both stimulated!
