This cozy *mystery* novel has everything readers want from the genre: an investigation carried out by a young woman unaffiliated with the police. The first to arrive at the crime scene, Camille finds herself a detective, improvising each step along the way. A blend of several elements: mystery, romance, and a story of friendship.

Camille, a dynamic young executive, admires her boss, the highly charismatic Louis Klein, a millionaire philanthropist. Despite being a septuagenarian, Louis lives life in the fast lane. But don't get the wrong idea: these two are like father and daughter. One morning, Camille's quiet life is turned upside down when she finds Louis' lifeless body. The police are sure it's a murder. And everything points to young Camille. Can she manage to find the murderer who set her up? What secrets was Louis Klein hiding?
