YOU are the hero of this book! For YOU can make a difference when it comes to protecting the environment!

Summer's just begun when you and your two best friends, Sam and Loulou, find out your favorite patch of green is now slated to be a construction site for a future apartment building. There's no way you're about to give up your soccer field and the little treehouse you built in an old oak. Maybe there's still time to keep the bulldozers flattening everything?

In this adventure, readers get to decide where the story goes next, selecting from options at the end of each paragraph: rally the neighbors or seek out the blueprints? Build a fence, or paint banners? Learn about native birds in the area, or grab a drink from a lemonade stand?
