"A fragrant botanical journey through 35 complementary fragrances." ~

This second volume of the *Atlas of Botanical Perfumes* continues exploring nature's most captivating scents, focusing on the botanical elements behind perfumery. It features woods, leaves, flowers, fruits, resins, seeds, and roots, each with unique aromatic qualities. From the rich notes of oud to the refreshingness of mint, this book unveils the diverse origins of fragrances. Illustrated with vibrant images, it is an essential guide for scent lovers and perfume professionals alike.
