

Réhabiter, engagés pour la qualité du logement

Author: Jean-Baptiste Marie

Publisher : Flammarion

Category : Art

Genres : Architecture/Heritage

Keywords : Architecture - Cultural heritage

The future of housing: designs and uses shared by professionals and enthusiasts from the worlds of architecture and historical preservation.

This reference book provides articles, interviews, and stories from the housing crisis: renovations, bio-construction, and residential co-ops. From detached houses to collective housing, it highlights innovative projects, bringing together forty authors (architects, urban planners, developers) to share advances in housing design and use.
