

The Rulers of the World

Unite, Govern, Subdue

Author: Pascal Boniface (Edited by)

Publisher : Eyrolles

Category : Humanities and Non-Fiction

Genres : Political Sciences - Geography/Demography - History

Keywords : Geopolitics - Elon Musk - Donald Trump

20 portraits deciphered by leading experts.

Power is no longer exclusively the domain of heads of state: it is distributed among a variety of actors whose media, technological, cultural, or ideological influence complements military, economic, and political forces. Experts analyze this new landscape and present twenty major figures who, each in their own way, are transforming the world stage and shaping the future.
