Dive into the world of the milliner and discover their exceptional craftsmanship!

The art of millinery requires precise skills and the mastery of diverse techniques. This book presents the main materials – fabric, straw, felt, and feathers – and demonstrates how to create and adorn iconic styles such as the cloche, Borsalino, bucket hat, beret, boater, wide-brimmed hat, and fascinator. Richly illustrated with diagrams, it offers step-by-step instructions for molding, sewing, shaping, and restoring hats. The authors also explore the history of headwear and the specialized vocabulary of this artisanal craft.
