Hydrangeas, roses, lilacs, pansies, daffodils, mimosa, ferns... This book provides tips on how to collect, preserve and turn your dried flowers and plants into magnificent multicoloured compositions to display.

A book presenting the art of the herbarium, from its origins as a collection of dried plants flattened between sheets and used as a scientific tool to the present-day popularity of pressing flowers. Throughout the seasons, you will learn everything about picking flowers and the different techniques for pressing and drying them. Finally, create beautiful compositions through 40 creative projects: minimalist herbariums, monograms, bookmarks, greeting cards, monochrome paintings, decorative frames for a child's bedroom, and more.
